Lipper Fund Category: Bond Global

The number of funds within the category should be at least five for a meaningful assessment

\* 12 month Maybank fixed deposit rate + 1% per annum

Fund performance and Lipper ranking are sourced from Lipper for Investment Management and benchmark is from [www.maybank2u.com.my](http://www.maybank2u.com.my), 30 April 2025. Performance is calculated on a Net Asset Value ("NAV") to NAV basis with gross income or dividend reinvested. Past performance is not necessarily indicative of future performance.

### LIPPER LEADERS RATING (OVERALL)

Total Return	Consistent Return	Preservation
①	①	①

#### Lipper Leaders Key

Lowest  
Highest

①  
⑤

The Lipper Leaders Ratings System is a set of tools that guide investors and their advisors to select funds that suit individual investment styles and goals. It uses investors-centred criteria to deliver a simple, clear description of a fund's success in meeting certain goals, such as preserving capital or building wealth through consistent strong returns.

Lipper Leader ratings are derived from highly sophisticated formulas that analyse funds against clearly defined criteria. Each fund is ranked against its peers based on the metric used (such as Total Return or Expense), and then the top 20% of funds in that ranking receive the Lipper Leader designation. Lipper Leaders measures are not predictive of future performance, but they do provide context and perspective for making knowledgeable fund investment decisions.

### FUND MANAGER'S COMMENTARY

Fixed income markets experienced significant intra-month volatility in April. The JP Morgan Asia Credit Index ended the month nearly unchanged with a return of -0.03% while the JP Morgan Emerging Markets Bond Global Diversified Index declined by 0.22%.

Minutes from the US Federal Reserve (Fed) acknowledged an uncertain outlook with risks of higher unemployment and inflation. The Fed emphasized that it would continue to closely monitor incoming data to guide future policy decisions. A restrictive monetary policy could be kept for longer if inflation were to remain elevated, and policy could be eased if the economy weakens. Meanwhile, the US unemployment rate has risen consecutively for the second month to 4.20% in March and held steady at 4.20% in April.

The yield on the 10-year Treasury note declined slightly by 4 basis points to 4.16%, while the yield on the 2-year note decreased by 28 basis points to 3.60%. Consequently, the yield spread between the two Treasury notes widened during the month. Additionally, the US dollar depreciated against most of the major developed nation currencies.

Emerging market hard currency debt posted losses amid higher geopolitical tension. High yield bonds in the JP Morgan Emerging Markets Bond Global Diversified Index lagged investment grade peers. Venezuela, Angola and Gabon recorded the lowest returns. Tensions between India and Pakistan escalated after a deadly terrorist attack was carried out in the Kashmir region, presumably perpetrated by a political resistance group with ties to Pakistan.

Asian bonds were flat for the month. Investment grade bonds in the JP Morgan Asia Credit Index outperformed Asian high yield peers. On a country level, Indonesia, South Korea and the Philippines delivered the best returns. On the other hand, Sri Lanka was the worst performer. Across sectors, transport and infrastructure topped returns while real estate and mining lagged.

### OTHER INFORMATION ABOUT THE FUND

Year	2020	2021	2022	2023	2024
Annual Fund Performance (%)	1.90	-5.61	-11.08	-11.64	14.38

### IMPORTANT INFORMATION

Based on the Fund's portfolio returns as at 30 April 2025, the Volatility Factor (VF) for this Fund is 11.8 and is classified as "Moderate" (Source: Lipper). "Moderate" generally includes funds with VF that are higher than 9.185 but not more than 11.98. The VF means that there is a possibility for the Fund in generating an upside return or downside return around this VF. The Volatility Class (VC) is assigned by Lipper based on quintile ranks of VF for qualified funds. VF is subject to monthly revision. The VF for the Fund may be higher or lower than the VC, depending on the market conditions. The Fund's portfolio may have changed since this date and there is no guarantee that the Fund will continue to have the same VF or VC in the future. Presently, only funds launched in the market for at least 36 months will display the VF and its VC.

Investors are advised to read and understand the contents of the Eastspring Investments Master Prospectus dated 15 July 2017, the Eastspring Investments First Supplementary Master Prospectus dated 2 February 2018, the Eastspring Investments Second Supplementary Master Prospectus dated 31 October 2018, the Eastspring Investments Third Supplementary Master Prospectus dated 2 January 2019 and the Eastspring Investments Fourth Supplementary Master Prospectus dated 1 August 2019, the Eastspring Investments Fifth Supplementary Master Prospectus dated 1 October 2020, the Eastspring Investments Sixth Supplementary Master Prospectus dated 15 December 2021 (collectively, the "Prospectuses"), as well as the Fund's Product Highlights Sheet ("PHS") before investing. The Prospectuses and PHS are available at offices of Eastspring Investments Berhad or its authorised distributors and investors have the right to request for a copy of the Prospectuses and PHS.

This advertisement has not been reviewed by the Securities Commission Malaysia ("SC"). The Prospectuses have been registered with the SC who takes no responsibility for its contents. The registration of Prospectuses with the SC does not amount to nor indicate that the SC has recommended or endorsed the product. Units will only be issued upon receipt of the application form accompanying the Prospectuses. Past performance of the Fund is not an indication of the Fund's future performance. Unit prices and distribution payable, if any, may go down as well as up. Where a unit split/distribution is declared, investors are advised that following the issue of additional units/distribution, the Net Asset Value ("NAV") per unit will be reduced from pre-unit split NAV/cum-distribution NAV to post-unit split NAV/ex-distribution NAV. Where a unit split is declared, investors are advised that the value of their investment in Malaysian Ringgit will remain unchanged after the issue of the additional units. Investments in the Fund are exposed to credit or default risk, counterparty risk, interest rate risk, country risk, currency risk, income distribution risk, ratings downgrade risk and derivatives risk. Investors are advised to consider these risks and other general risks as elaborated in the Prospectuses as well as fees, charges and expenses involved before investing. Investors may also wish to seek advice from a professional adviser before making a commitment to invest in units of any of our funds.
